SPRING 2024

GENUS - SPECIES / VARIETY OR COMMON NAME	QUANTITY	SIZE / TYPE	HEIGHT	PRICE	COLD HARDINESS
				WHOLESALE	
Bambusa chungii / Barbellata					
If bamboo were ghosts, this would be Caspar, the friendly bamboo. White sheets for canes. Or blue. Slightly smaller than B. chungii. to 20' or 22'	7	95g	14'+	\$650	Zone 9a (20-25°F)
Bambusa chungii / Blue Bamboo					
It is blue. Or it's white, when it's not green. Should be the bamboo of choice where it can be seen. to 25'.	2	30g	10'	\$190	Zone 9a (20-25°F)
	22	*Field Specimens	20'	CALL	
Bambusa dolichomerithalla / Silverstripe					
As pretty & as hardy as B. textilis. Few know this bamboo. But many should. White stripes on green canes. to 35'	28	15g	8'+	\$90	Zone 8b (15-20°)
	27	30g	14'	\$190	
	4	95g	12'	\$650	
Bambusa emeiensis / Flavidorivens					
Leaves-down, the single prettiest bamboo we cultivate. Has all the qualities. Tall. Not too tall. Perfectly upright. Leaves hanging down. Goldstriped with green. to 35'	4	15g	8'	\$120	Zone 8b (15-20°)
	17	30g	16'	\$225	
	20	65g	12'	\$425	
Bambusa emeiensis / Yin Yang					
The green striped with gold. The inverse of flavidorivens. to 35'	7	65g	14'	\$425	Zone 8b (15-20°)
	6	*Field Specimens	20'	\$525	
Bambusa eutuldoides / Viridivittata					
"Lemon" Bamboo. But not a lemon in sight. If it had fruit, there'd be a fight. Try as it may, try as it might, this yellow bamboo is quite a sight. to 35'	11	30g	10'	\$190	Zone 9a (20-25°F)
	6	45g	10'	\$325	
Bambusa lako / Black Bamboo					
Tropical black clumping bamboo. to 35'	18	30g	12'	\$225	Zone 9a (20-25°F)
Bambusa malengensis / Seabreeze					
Seabreeze... Doesn't make a wind, but moves in one. If I chose a bamboo to strap myself to in a Hurricane, this would be it. to 45'	25	15g	8'	\$90	Zone 8b (15-20°)
	9	30g	10'	\$190	
	3	45g	11'	\$325	
	-	*Field Specimens	15'-20'	CALL	
Bambusa multiplex / Alphonse Karr					
I don't love it. But people know it. And they buy and plant it. I'd let it go if I could. But this bamboo is still in. to 15'	75	5g	4'	\$35	Zone 8b (15-20°)
	50	15g	5'	\$70	
	7	30g	8'	\$150	

NOTE: Prices Do NOT Include Taxes or Delivery Fees

*FIELD SPECIMENS: Available sizes & pricing varies based upon plant species/variety. Field Specimens are generally equivalent to 65 gal, 95 gal, and 200 gal container sizes. Price range \$199-\$899. Orders are custom dug, ball & burlap (B&B). CALL for inquiries.

WHOLESALE

Bambusa multiplex / Fernleaf

True to it's name, leaves like a 10' tall fern.

255	15g	5'-7'	\$70
4	30g	10'	\$150
69	*Field Specimens	4'-5'	\$150

Zone 8b
(15-20°)

Bambusa multiplex / Golden Goddess

ALL the bamboo turn Golden in the Midday Sun. Except the bamboo that turn to coffee or black. But green bamboo go gold, all told. to 12'

68	5g	5'	\$35
170	15g	6'-7'	\$70
4	30g	10'	\$150

Zone 8b
(15-20°)

Bambusa multiplex / Green Hedge

This is the Papa Bear. All his offspring weep and fountain. But sadness is not his style. He's green and happy to form a screen. to 18'

40	*Field Specimens	12'	CALL
1	*Field Specimens	20'	CALL

Zone 8b
(15-20°)

Bambusa multiplex / Silverstripe-Recurvata

How the white stripes come in Spring but leave in Summer. Where do they go? And why do they go this way? to a curvy 8' tall

97	15g	7'	\$70
33	30g	7'-10'	\$150

Zone 8b
(15-20°)

Bambusa multiplex / Silverstripe-Upright

Same as above, but likes the sky. Has more respect for it. Grows right into it. Up, up, and away. White stripes then none. to 16'

16	15g	8'	\$70
17	*Field Specimens	5'	\$150

Zone 8b
(15-20°)

Bambusa multiplex riviereorum / Chinese Goddess

This is the 6' little-sister to 'Fernleaf'. Same leaf. Hasn't been turned over. Just closer to the ground.

250	5g	4'	\$35
-----	----	----	------

Zone 8b
(15-20°)

Bambusa nana / Small Leaf

Nothing like granny. But just like bamboo with little leaves that shake and quake.

12	30g	12'	\$190
----	-----	-----	-------

Zone 9a
(20-25°)

Bambusa odishamae / Taiwanese Sweet Shoot

Has been sold as B. oldhamii for years. But it's not. It tastes better. Not bitter. Better. Grows like a Cobra at attention. But big & beautiful. to 45'

9	15g	8'	\$90
8	30g	10'	\$190
8	45g	12'	\$325
8	95g	16'	\$650

Zone 9a
(20-25°)

WHOLESALE

Juniperus virginiana 'Taylor Juniper' / Eastern Red Cedar 'Taylor'

Italian Cypress "Glaucua" are really poor plants in our part of the World. And always have been. But 'Taylor' Junipers are less poor and more cold hardy and less prone to 23 different ailments that make Italian Cypress suck.

20	45g	10'	\$425	Zone 4b (-20 to -25°)
15	80g	12'	\$525	

Sabal bermudana

A big robust, cold hardy Sabal that has been naturalized in East Austin and parts of San Antonio for at least a hundred years. Thrives from the Coast to at least Waco and maybe further inland.

45	5g	2'	\$45	-
----	----	----	------	---

Sabal guatamalensis

A bigger, robust-er, cold hardy Sabal with wickedly long petioles and leaves in shade that can cover an African Elephant's ears if you need to cover them for any reason. The trunk is probably the largest of any Sabal palm that can thrive in Texas.

65	5g	3'	\$45	-
----	----	----	------	---

Sabal mexicana

The preferred palm for thatched roofs from here to Guatemala and a crazily hardy palm to boot.

50	5g	2'	\$45	-
----	----	----	------	---

Sabal uresana

The Greyest of the Sabal clan. Some would even say Silver.

20	5g	2'	\$45	-
----	----	----	------	---

Sabal minor

A name that names itself in relation to all it's closest relatives.

150	1g	12"	\$12.50	-
-----	----	-----	---------	---

Sabal palmetto

A Florid palm that even thrives under the Solo Star of Friendliness.

70	5g	18"	\$35	-
----	----	-----	------	---

Rhapis excelsa / Lady Palm

Lady palms are bad office building plants except that they are so crazy beautiful and slow moving and willing to try almost anything indoors.

15	7g	5'	\$120	Zone 8b (15-20°)
15	10g	5'	\$150	

Chamaedorea radicalis

Cold hardy palm. Upright slender form, long open leaves. 9'-12' tall.

77	5g	3'	\$35	Zone 9a (20-25°)
----	----	----	------	---------------------

NOTE: Prices Do NOT Include Taxes or Delivery Fees

WHOLESALE

Pitcairnia lehmannii

Hands down or up my favorite potted plant for porches, patios, and other alliterated-P-places where you want a huge strapping leaf with Silver undersides that looks great even when you don't... water it, or care for it very often.

30

3g

4'

\$45

Zone 8a
(10-15°)**Billbergia nutans / Queen's Tears**

This is one of those surprising plants from another planet that grow in gardens where you wouldn't expect them to grow but are happy when they do.

250

1g

1'-2'

\$8.50

Zone 8b
(15-20°)**Billbergia nutans 'Wide Leafed'**

Wide Leafed, just like it says.

70

\$10.50

Zone 8b
(15-20°)**Dyckias - Assorted Varieties**

Dyckias are where it's at! If you've ever been to the Huntington Garden then you know what I'm saying. Tough, tough, tough. Colorful, colorful, colorful. Hummingbird, hummingbird, hummingbird. Pokey, Pokey, Pokey. And Amazing, amazing, amazing that they are not Agaves and not Aloes but are bromeliads from South of the Americas and grow great in the South of North America too.

GENUS - SPECIES / VARIETY OR COMMON NAME	QUANTITY	SIZE / TYPE	HEIGHT	PRICE	COLD HARDINESS
Carex texensis / Texas sedge				WHOLESALE	
Sedges are not just for edges or meadows or wetlands. They're for all those places and your garden too.	500	1g	4"	\$3	Zone 5a (-15 to -20°)
Carex vulpinoidea / Fox Sedge					
Fox Sedge, bigger and not necessarily better than other natives sedges. But it is bigger than many.	60	5g	10"	\$18	-
Rumohra adiantiformis / Leather Fern					
This is the fern to wear as a fig leaf when out with whips & chains and randy friends who like to get rough.	70	2g	12"	\$12	-
Nephrolepis biserrata / Macho Fern					
Could just as easily be a Feminine Fern with some of the longest, loveliest limbs in the Nephrolepis realm. Can also be a happy monster in a shady, pot.	50	5g	36"	\$18.50	-
Nephrolepis cordifolia / Ladder Fern					
A tough little fern for protected spots where not much else can thrive.	70	3g	24"	\$10.50	-
Turmeric / Curcuma longa					
Now that we know what we know, every garden should have Turmeric growing in a corner or three. Each Fall you dig it, eat much of it, replant the rest the next Spring and never run out. Put it in smoothies, curries and dishes that grant wishes to live a longer, less inflamed life.	300	5g	5'-6'	\$18.50	Zone 8a (10-15°)
